

Instructions "How to recover a password in Moodle Distance Learning System»

For students:

You can recover a password in Moodle Distance Learning System in two ways.

1 Way

The screenshot shows the Moodle login interface. At the top, it says 'СДО Moodle СГУ' and 'English (en)'. On the right, it says 'You are not logged in.'. Below this is the title 'Система дистанционного образования Moodle СГУ им. Питирима Сорокина' and a 'Home' link. The main heading is 'Log in'. There are input fields for 'Username' and 'Password', a checked 'Remember username' checkbox, and a 'Log in' button. A red box highlights the link 'Forgotten your username or password?'. Below this is a note: 'Cookies must be enabled in your browser'. At the bottom, there is a 'Log in as a guest' button.

If you changed your email address in the Moodle DLS during previous visits, then on the authorization page you can click the link "Forgot your username or password?". You will receive an email with password recovery information. Follow the instructions in the letter.

2 Way

Apply for password recovery by email ost@syktsu.ru indicating your surname, name, patronymic, student ID number, group, institute.

Note. If password recovery is required for a group of students, it is recommended to make a common application from the entire group, filled out with a list (indicating the students' full name and student ID numbers), and sent through the directorate.
